

**Professional ISO 45001 training  
for occupational health and  
safety management systems**

The UK's leading independent provider  
of management systems and business  
improvement training

**Bywater**

## Training with Bywater

Welcome to Bywater's programme of trusted training developed and delivered by experts for anyone wishing to learn about and improve their occupational health & safety (OH&S) management in relation to ISO 45001.

### Why is ISO 45001 important?

With the right OH&S management systems in place, organisations can minimise harm to their workforce and customers. That means less disruption, improved employee satisfaction, and greater customer confidence. ISO 45001 is the international standard for OH&S management systems providing a framework that you can use to manage risk and improve performance. With Bywater's ISO 45001 professional training, you can find out why and how to implement OH&S systems and work towards continual improvement.

## OH&S management for all sectors

From multi-nationals to small businesses, health & safety management is vital to organisations of all sizes to ensure the well-being of staff, customers and partners, as well as compliance with regulations. We have welcomed global delegates from aviation and aerospace, financial services, education, food and agriculture, healthcare, charities and ICT.

### Transport and logistics

In a high-risk industry where hazards are part of everyday business, a culture focusing on health & safety at all times protects both employees and the public.

### Retail, hospitality and tourism

When success depends on delivering high-quality, face-to-face service for numbers of people with different needs, commitment to safety for all is paramount.

### Public sector

Working in a wide range of office and outdoor roles around the country, public sector workers all need to work in safe environments and protect clients from harm.

### Energy and utilities

Keeping workers and the public safe during hazardous activities is a top priority for organisations delivering energy and utilities across the nation.

### Construction, engineering and manufacturing

Whether working with heavy plant or machinery, employees need to know there are systems in place to avoid the risk of injury.

## Which course is right for you?

Our wide-ranging programme of highly practical and interactive training courses delivers the skills and knowledge you need at every stage of your OH&S management systems journey, from initial awareness to becoming an accomplished OH&S management auditing professional.

## OH&S management systems

Whether you are new to OH&S management systems or ready to extend your skills, we have a course to suit your needs.

### 1 Understanding

**New to OH&S management systems?**

[Introduction to ISO 45001:2018 | 1 day](#)

Explore the purpose and requirements of ISO 45001 and its role in OH&S management. IOSH approved.

### 2 Implementing

**Ready to implement an OH&S management system?**

[ISO 45001 Implementation | 2 days](#)

Understand ISO 45001 requirements and gain the skills to implement, manage, maintain and improve an OH&S management system.

### 3 Auditing

**Time to apply auditing knowledge to ISO 45001**

[ISO 45001 Internal Auditor | 2 days](#)

Build on your ISO 45001 knowledge to learn how to plan, conduct and follow up internal audits for your organisation.

[ISO 45001 Lead Auditor | 5 days](#)

Develop the lead auditor skills you need to carry out both internal and external audits. CQI and IRCA certified.

### 4 Upgrading

**Ready to upgrade your OHSAS 18001 auditor knowledge?**

[ISO 45001 Auditor Migration | 2 days](#)

Upgrade your OH&S management system auditor knowledge from OHSAS 18001 to ISO 45001. CQI and IRCA certified.

## 5 Growing

Want to expand your current auditor knowledge?

**ISO 45001 Auditor Conversion | 3 days** 

Extend your auditor skills gained in other disciplines to the world of OH&S management systems. CQI and IRCA approved.

## 6 Extended expertise

Learn new skills and techniques to improve the health and safety aspects of your workplace.

**Introduction to ISO 45003:2021 | 1 day** 

Focus on the mental health aspects of OH&S management with guidance on how to control psychosocial risk within the workplace.

**Introduction to ISO 45005:2020 | 1 days** 

Understand ISO 45001 requirements and gain the skills to implement, manage, maintain and improve an OH&S management system.

## Training styles

Choose a training location to suit your needs.

- Join us at a public course in one of 15 venues across the UK
- Attend a live global online training course in our Virtual Classroom
- Opt for a dedicated course specific to your organisation, at a time and place of your choosing.

Wherever you decide, the training is live and fully interactive to help you make the most of your investment.

## Our tutors

We only employ expert tutors who can bring their hands-on experience in the field to the classroom. Our tutors focus on sharing their knowledge in a supportive, inclusive and engaging way, ensuring that all delegates gain maximum benefit from their teaching and leave the course ready to use their new skills straight away.

## What is an Approved Training Partner?

We are proud to be an approved training partner for CQI and IRCA, which has certified our individual flagship courses, recognising our commitment to quality in training.

Courses approved by the Institute of Occupational Health & Safety (IOSH) are recognised for their high quality and thought leadership in safety and health.

To book or find out more about our ISO 45001 training courses, visit:

The tutor added an immense amount of value to the course with prior knowledge and understanding

**Babcock International Group**

The tutor went the extra mile to ensure that we all learnt the course content, and made the scenarios as realistic as possible

**Driver and Vehicle Agency**

The tutor was able to observe each student's skills sets within hours, and adapted the course delivery to promote the best from each of us

**Royal Navy**

The tutor was brilliant – a combination of substantial experience and an ability to relay information clearly

**Mitsubishi Power Europe Ltd**
